## PROFILE

---

I'm a dedicated programmer with a love for web design and web development. I'm a recent graduate of Seneca College's Computer Programming student and a fantastic problem-solver. I'm now seeking a position in the software industry where I can expand my abilities, learn new technologies, and contribute with a high level of devotion to the operations of the company.

## PROJECTS

---

### [Personal Portfolio](#)

I created a Personal Portfolio website using HTML, CSS, and JavaScript, showcasing my skills, projects, and achievements with a clean and interactive design.

### [The Simon Game](#)

As a passionate developer, I took the initiative to develop a fully functional Simon game using HTML, CSS, and JavaScript as a personal project.

### [ToDo List Project](#)

I developed a dynamic ToDo application using HTML, CSS, and JavaScript as a personal project. The app allows users to create, manage, and track tasks.

### [The Assembly Line Station](#)

I developed "The Assembly Line Station" project using C++, simulating a production line with tasks performed on products. The project showcased my proficiency in C++ programming, algorithm design, and problem-solving.

## WORK EXPERIENCE

---

### Stealth Monitoring Inc.

July 2023 – Dec 2024

#### Web/Graphics Designer

- Developing good understanding of the surveillance software used.
- Receiving field operations and IT Setup installation and system configuration information through the SalesForce.
